

" What do you think the health care financing administration is? It's a centralized command bureaucracy. It's everything we're telling Boris Yeltsin to get rid of. Now we don't get rid of it in round one because we think that's politically smart and we don't think that's the right way to go through a transition. But we believe it's going to wither on the vine."

House Speaker Newt Gingrich
Speech to Blue Cross
October 24, 1995

"Newt's ideas are influencing how we at AARP are thinking about our national role in health promotion and disease prevention and in our advocating for system change."
